All other presents have a return-on-investment nature. Each individual has an equal opportunity to live in harmony. Each of us should contribute more to private and charitable anti-poverty efforts. Through the non-governmental organization MTCP, our chairman wishes to extend his support to residences for the elderly, cerebral palsy children, and orphanages. In addition, he hopes to instill a spirit of service in the student body by encouraging visits to these facilities. For the next academic year, the college has pledged to contribute to the development of these residences via infrastructure improvements, teaching and learning aides, and food and clothing needs.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>

Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp.</p> <p>Plastic is inexpensive and handy. Plastics dominate the manufacture and packaging of most consumer items. This is where many advantages cease. Plastic is not only destructive to the environment, but also poses a health risk and takes a long time to breakdown naturally. Many plastics enter animal food systems, which humans ultimately ingest. Plastic is now a major environmental hazard. Increased plastic use has resulted in increased trash, manufacturing demand, and a more hazardous environment for animals.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>
