ACTIVITY REPORT

Name of the Activity	SAVE SOIL MOVEMENT	
Type of Activity	Awareness campaign	
Date and Time of Activity	16-06-2022	--
Details of Participants	Students and Faculty	
Coordinator(s)		
Organizing Dept./Support System	NSS department	
In collaboration with	NSS UNIT	
Description	<p>Sadhguru, an Indian spiritual teacher, launched Save Soil to prevent soil erosion and promote healthy soil. The WHO, UN SDG lab, and IUCN funded the Isha Foundation's Geneva UN presentation on April 5.</p> <p>An IUCN Member, the VAGDEVI Foundation, launched the "Trip to Preserve Soil" in MTCP to increase awareness of soil degradation and encourage organic matter restoration to agriculture. Satguru, its creator, rode a motorcycle through 26 countries for 100 days. Degradation is physical, chemical, and biological soil degradation. Overgrazing, deforestation, urbanization, industrial pollution, and unsustainable farming deplete half the world's soil. declined. The loss of it threatens food, water, biodiversity, climate change, livelihood, conflict, and migration. This is the most urgent time to change agricultural systems.</p> <p>A few MTCP students and staff planted trees in the neighborhood during the event.</p>

Activity Report

Name of the Activity	Awareness campaign on usage of Biodegradable covers
Type of Activity	Environmental Awareness
Date and Time of Activity	23-07-2022
Details of Participants	Students and Faculty
Coordinator(s)	
Organizing Dept.Support System	All department
In collaboration with	SEMINAR HALL
Description	<p>The majority of plastics we use today are still produced using fossil fuels, which results in higher greenhouse gas emissions during all stages of manufacture, use, and disposal. Furthermore, recycling rates are still low, and plastics continue to be a concern to the environment due to littering, poor waste management, and product wear and tear that contaminates the environment with microplastics. Polymers and the chemical additives they contain have a long half-life in nature and may end up in the food chain. Several firms have introduced polymers that are regarded as bio-based, compostable, or biodegradable in response to rising public demand. Yet, barely 1% of the market is occupied by these kinds of plastics.</p> <p>Plastics that decompose and can be composted should decrease the environmental issue that plastics present, but they still need to be disposed of properly, an important element that is frequently poorly understood by consumers, according to the EEA briefing. For instance, over a predetermined amount of time, microbes can convert biodegradable and compostable materials into new biomass, water, carbon dioxide, and mineralsalts.</p> <p>As part of this awareness campaign, MTCP students and staff travelled to the village and raised awareness about plastic bags, how safe they are for the environment, and the dangers they bring.</p>

Description	<p>Our college arranged tree planting initiative to raise public awareness about climatechange and its negative effects on us. The principal of our institution, was the guest of honor for this tree planting programme, which beganat 2:00 in the afternoon. A range of 200 plants were planted in the college garden andperiphery of the college playground to create an awareness about saving trees. Students planted many saplings and it contains medicinal properties The program ended at 4:00 p.m. the students pledged to plant as many trees as possible near our areas so as to create a veryhealthy environment and contribute in minimizing the climatic changes. We hope that everyone will plant a tree at least once in their lifetime to help preserve the environment.</p>

Description	<p>On World Nature conservation Day" on July 28, 2021. All of the staff and students had planted the plants at their homes on this occasion.</p> <p>On this occasion, our chairman Sir, took the initiative and planted a plant. He delivered a speech in which he encouraged everyone to plant at least one tree each year in order to create a pollution-free society. This programme was delivered entirely online. The majority of the faculty illustrated their interest by planting trees in their immediate surroundings.</p>

Description	<p>The dangers that plastics pose are numerous. The becomes littered with plastic bag garbage, presenting an unsightly and poor sanitary conditions sight. As a result of the "throw-away culture," these bags end up in the city. On September 9th, 2020, the college held an awareness rally from campus to signal titled "Say no to plastic." The principal, vice-principal, staff, and students all took part and explained the effects of plastic on current and future generations. Congratulations to NSS Coordinator and the SAC team for organizing this event. and we hope to see more of von the fixture.</p>

Description	<p>Let's stop arguing over who we think created the Earth and join forces to resist those who want to do it harm." With the help of the Dhruvansh Organization, the MTCP NSS team, led by our faculty, and students, launched a massive mission to clean the Lake on September 18. Therefore, the objective attempts to remove waste materials such lily pads, creepers, scum, water plants, and other weeds from the water body. We are grateful for the efforts made by the entire team to clean the lake. With participation certificates, the management has shown its appreciation for the work of the faculty and employees.</p>
